PRESS RELEASE

Cyient Foundation Launches a Groundbreaking AI Initiative for Government Schools in Andhra Pradesh

Visakhapatnam, August 29, 2025: Cyient Foundation, the CSR arm of Cyient, announced the launch of *CyAILS - Cyient AI Lab for Schools*, a transformative five-year initiative designed to empower over 25,000 students in 50 government high schools across Visakhapatnam. The initiative was launched by Hon'ble Minister for Human Resources Development, IT Electronics and Communication, Shri Nara Lokesh here today.

This flagship program aims to bridge the digital divide by equipping underprivileged students from Grades 7 to 10 with foundational skills in Artificial Intelligence (AI), STEM, and Robotics.

The initiative also aligns with India's National Education Policy 2020, promoting experiential learning and integrating 21st-century technologies into mainstream education. Each school will receive a fully functional AI Lab, complete with computers, IoT-enabled devices, STEM and robotics kits, and broadband connectivity. In addition, over 200 teachers will undergo structured training to ensure long-term impact and sustainability.

"CyAILS is not just a CSR initiative, it is a commitment to inclusive innovation," said **Dr. BVR Mohan Reddy, Founder Chairman of Cyient**. "By bringing cutting-edge technology into government school classrooms, we are investing in the aspirations of young minds who will shape India's digital future. This initiative also reinforces our belief that technology, when made accessible, can be a great leveler."

Through hands-on workshops, project-based learning, and innovation challenges, students will not only gain technical knowledge but also learn to apply AI and STEM tools to address real-world community problems. The program includes structured monitoring, evaluation, and certification to track impact and promote continuous improvement.

CyAILS represents a scalable model for AI education and embodies Cyient Foundation's larger vision of "**Empowering Tomorrow Together**" by equipping India's youth with future-ready skills. Building on its strong track record, the Foundation has successfully digitized over **120 government schools**, reaching more than **35,000 students** with digital literacy. Through its **Adopt-a-School** initiative, over **21,000 children** are currently receiving quality education.

Beyond education, Cyient Foundation has also championed **women's empowerment and rural development**. Each year, more than **2,000 rural women** are trained for sustainable employment. The transformation of **Mokshagundam village** stands as a testament to these efforts—with **100% school enrollment, zero infant mortality, and universal access to healthcare and sanitation**—making it a model of rural resilience.

The Foundation has further institutionalized entrepreneurial learning through the **BVR School of Innovation and Entrepreneurship (BVR SCIENT)** at IIT Hyderabad. This school offers structured programs in innovation, design thinking, and leadership, empowering young engineers to become future-ready entrepreneurs and changemakers.

About Cyient Foundation

Cyient Foundation, the CSR arm of Cyient Ltd., is dedicated to driving sustainable social impact through initiatives in education, digital literacy, healthcare, and skill development. Since its inception, the Foundation has partnered with communities, governments, and NGOs to create inclusive and scalable models for change.
