Key Customers & Partners

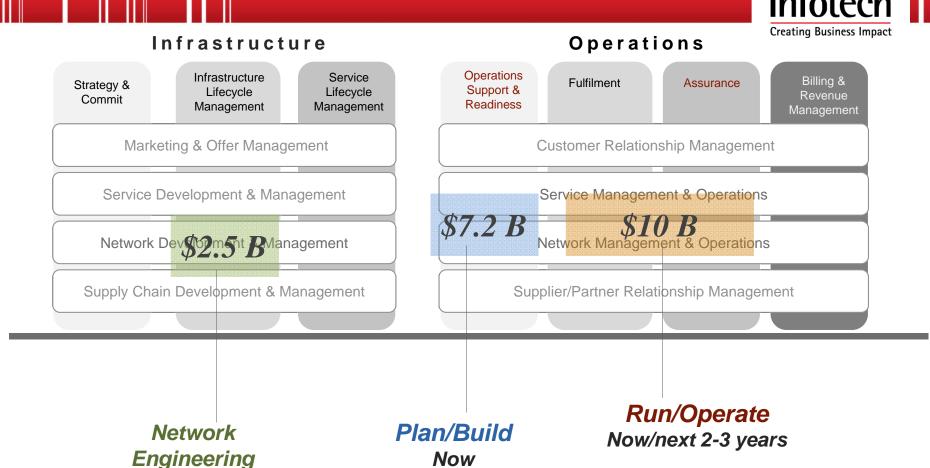

servicenow"

"We've used Application Management Services from several companies and what separates Softential is the quality of the team. The Softential AMS team outperformed all the others in managing and enhancing our solution environments. Exceptional technical skills, fast learners, and extremely responsive. Softential is the only AMS team that we've considered as a true extension of our in-house team."

Director, Fortune 500 company

Softential broadens our addressable market space

Some aspects of the transaction

Implementing Best Practices

- Enhanced scope of due diligence from customer and operational perspectives
- Identified and involved Integration Team very early in the transaction

Payment Structure

- Revenue Multiple of 1.1x upfront plus performance based earn-out in first year
- Capital structure: 1:1 debt vs equity

Financial Benefits

- o Acquisition is EPS accretive
- o ROE and ROCE improve by >0.5% basis points on a consolidated basis

Summarizing Softential's value

- Softential's domain expertise and referenceable track record gives us strong play in the
 Service Management/Service Assurance space across multiple industry verticals
- Softential's consulting skills and global delivery model will support geography expansion
 (all revenues currently from US), new service propositions and new client acquisition
 including cross-selling into Infotech's key accounts
- Opportunity to expand into NOC/SOC Managed Services to support long-term, annuity business
- By leveraging synergies, Infotech is targeting significant growth from Telecom Operate/Service Assurance business over next 3 years
 Softential acquisition will be earnings accretive and have positive impact on other financial parameters
