

2012 Global Services 100: Infotech Enterprises Recognized as a Leader in Engineering Services and Outsourced Product Development

Hyderabad, August 29, 2012: Infotech Enterprises, a leading global engineering solutions company, has been recognized as a leader in the following categories by Global Services magazine:

- Leading Engineering Services Vendors
- Leading Global OPD Vendors
- Top Mid-Tier ADM Companies

The Global Services 100, now in its seventh year, is a tool for buyers of business and technology services to identify and select the right vendor. The study is done under the guidance of Neogroup, a globalization advisory firm. The GS100 analytical model is based on four key criteria: performance and leadership, quality and maturity of customers, breadth of services offered, and spread of global delivery capabilities.

Customers across the globe trust Infotech with complex engineering projects including mission-critical and safety-critical aspects. This has been confirmed in several independent studies during the year. Infotech Enterprises was recently categorized for the second consecutive year as the leader in R&D services for Transportation and Aerospace & Defense by Zinnov Consulting. Infotech is also on the Global Outsourcing 100 list that was released by International Association of Outsourcing Professionals (IAOP).

About Infotech Enterprises

Infotech Enterprises provides leading-edge engineering solutions, including product development and life-cycle support, process, network and content engineering to major organizations worldwide. With nearly two decades of continuous growth, Infotech leverages a global delivery and collaborative engineering model to achieve measurable and substantial benefits for our clients.
